

TUI FIELD 'UMUROA' FPSO HOOKUP AND FINISHING

Robt. Stone was the 'one-stop-shop' for all aspects of the hook-up, repair and finishing for the Tui FPSO Umuroa. The company supplied fitters, welders, scaffolders, riggers, I & E, carpenters, insulators, painters, NDT and plumbers.

The job took 75,000 man-hours and used 60 tradesmen at peak on board for the four month duration.

Scope of work included: new steam lines, pipe spooling, ladder and walkways, structural repair, flow line hook-up, electrical and instrumentation installation and commissioning, accommodation finishing, equipment installation, valve repair, safety equipment, machine alignment etc.

Robt. Stone is providing on-going maintenance and shutdown services.
