

TRANSPORTABLE ODORANT VESSEL SKID

Tenix Robt Stone was contracted by P & P Engineering Solutions to design and fabricate a 2,500 Litre skid mounted odorant vessel skid to be used by Natural Gas Corporation for the delivery of Mercaptan odorant by road to the various NGC Sites throughout New Zealand.

The vessel and frame were designed and fabricated to AS1210, PECPR Code, NZS 5418.1 Multi-Modal Tanks, UN Dangerous Goods Regulations and ISO 1496-3 Freight Containers. The completed tank & skid unit was certified by the Dangerous Goods Inspector as approved for the road transport in New Zealand of Mercaptan.

- **PROJECT:** DESIGN AND FABRICATE ODORANT SKID
- **CLIENT:** NATURAL GAS CORPORATION
- **LOCATION:** NEW PLYMOUTH
- **DATE:** 2005
